

Northern Cyprus Holiday

Our Northern Cyprus holiday was a new experience for seven travel group members as none of us had been to this region before. Northern Cyprus has opened its borders so it is now possible to travel from Southern Cyprus to Northern Cyprus. Before it was necessary to go to Turkey first. The weather was very good, sunshine every day. Great pool and a nice beach area used only by our hotel guests. The Hotel though a little basic for the four stars we are used to, had everything. Clean rooms, friendly staff and as much food as you could eat. We had plenty of free time to do our own thing and also some good organised tours.
